SIGN & DISPLAY
COLLECTION
2013

Why choose our market-leading range of signs & displays?

- **Award-winning** designs for every area of promotional signage and display

- **Low cost, high impact** designs for maximum return on investment

- Developed for and used by many **leading brands and retailers** throughout the UK, Europe and beyond

- Many **unique features** and benefits

- **Huge stocks** and **fast delivery** of most popular lines

- Most products available with no **minimum order quantities** and no small quantity surcharges

- **Custom colours and sizes** available on many lines

- High quality screen and digital **print service available**

Green Guide

Look out for recyclable parts/materials and green symbols throughout this brochure, which highlight the environmental benefits of our products.

Use of Recyclable Materials
The vast majority of our products are made with materials that can be recycled when the product reaches its 'end of life'.

Use of Recycled Materials
Some of our products are made using recycled materials. Examples include our pavement sign and forecourt sign bases.

Designed for Easy 'End of Life' Recycling
This means that a product can be quickly and easily dismantled at 'end of life', allowing the different component materials to be separated for recycling.

We take great care to minimise the impact of our business on the environment. This includes employing eco-design principles, reducing the use of road vehicles, improving the energy efficiency of appliances and installing motion-sensored lighting. All product packaging uses at least 80% recycled board material and is also considered for reduction of transport volume. We do not work with endangered wood species or with suppliers who are unable to provide evidence that the wood in their products is from sustainable sources. **Please contact us if you would like further information on our environmental policy.**

Swinger
The UK's No.1 Pavement Sign

Patent No. EP 0809227   UK Design Registration No. 2071096   EU Design Registration No. 001274229

Why is Swinger the UK's market-leading pavement sign?

- Beautifully designed and engineered
- Quick and easy 'no tools' assembly
- Soft round styling for high pedestrian safety

- Low centre of gravity for maximum stability
- Individually boxed and flat-packed with instructions
- Fully recyclable

Clip-on Tactical Headers, available for Swinger 2000, 3000 and 4000

Soft round styling for high pedestrian safety

Choice of aluminium panel or magnetic poster pocket (shown)

Stylish steel frame – can be powder coated in any RAL colour (minimum order quantities apply)

Solid recycled PVC or water-fillable polyethylene base (subject to model)

Patented 'D-Flex' panel hangers allow easy 'no tools' panel fitting and ensure longevity of the sign

For a one-off tooling charge, logos can be moulded into bases (minimum order quantity: 100)

Eco Swinger

Swinger 2000 (Poster Option)

Swinger 3000 (Panel Option)

Swinger 4000

D-Flex Panel Hangers
Patent No. GB 2437991

- Enable quick and easy 'no tools' panel fitting
- Absorb impact, preventing damage to the panel and therefore ensuring long-life

'No Tools' Assembly
Patent No. EP 0809227

- Simply push base onto frame

Top-Opening Poster Pockets
Patent No. GB 2464773   EU Design Registration No. 001274229

- Quick and easy poster change
- Self-closing magnetic seals
- Virtually no risk of poster loss
- Excellent weather resistance

Built-In Wheels

- Allow easy and safe movement
- Fitted on Swinger 3000 and 4000

SWINGER • THE UK'S NO.1 PAVEMENT SIGN

Water-Fillable Bases

- Ensure optimum stability
- Fitted as standard on Swinger 3000 and 4000
- Also available on Swinger 2000 (minimum order quantity applies)

Custom Pavement Signs

All made to order

Available re-branded / customised to order

Eco Swinger
Poster Option

Minimum order quantity: 25

Top-opening poster pockets

Quick and easy 'no tools' assembly

All the features of our standard Eco Swinger, now with top-opening poster pockets for double-sided A3 poster display. Custom colour frames and printed poster pockets are available for added impact and brand presence. Quick and easy 'no tools' assembly and our patented 'D-Flex' panel hangers complete this small but perfectly formed poster sign.

For further information about our top-opening poster pockets, see page 7.

Swinger Totem

Minimum order quantity: 50

Based on our standard Swinger, this sign incorporates a water-fillable base, extended steel tube frame and 5 interchangeable swinging aluminium panels.

This type of sign could be easily adapted to suit a wide variety of brands and retailers.

Call us to discuss your ideas.

British POP Award Winner
Silver

Sentinel Totem

Minimum order quantity: 25

Alternative design featuring our water-fillable Sentinel base (see page 48) with an eye-catching permanent graphic panel and menu sticker set.

Extended Swinger

Minimum order quantity: 50

With our solid recycled PVC base and an extended steel tube frame, the enlarged poster panel offers greater space for permanent branding.

This type of sign would suit a wide variety of brands and retailers looking for a high impact poster sign.

Ecoflex Totem

Minimum order quantity: 10

The specially modified recycled PVC base can hold 3mm aluminium composite panels up to 1.7m tall, opening up new opportunities for 'larger than life' displays from our market-leading sign.

Recommended for internal and sheltered outdoor use only

Bobby

Minimum order quantity (guide): 1000

Patent No. GB 2320358   Design Registration No. 2061766 & 2061767

'Bobby' is a self-righting pavement sign developed in 2003 as part of a major project for The National Lottery and one of the largest single POP roll-outs in Europe.

Bobby's low centre of gravity and counter weight ensure that it always bounces back.

Intended to reflect the fun and excitement of the Lottery, Bobby is also high impact and hassle free, with no maintenance needed and no replacement parts.

The pavement sign that wobbles but won't fall down!

British POP Award Winner
Gold Award for Innovation

Eco-Design Litter Bin

Minimum order quantity: 500

The 'Eco-Design Litter Bin' creates a 'front of store' brand presence at the point-of-purchase with real benefit to the retailer, the consumer and the environment.

Eco-design principles include:

• Use of low impact materials

• Use of recycled materials

• Use of recyclable materials

• Reduction of weight

• Reduction in transport volume

The bin components nest within each other to minimise volume and therefore packaging, shipping, storage and onward distribution costs.

Uses a standard bin liner

Slide over, tamper resistant lid

Easily carried using side carry handles

British POP Award Winner
Gold Award for Innovation

All components 'nest' within each other, allowing 4 × more units per pallet vs a conventional bin

Snapframes

Large Stocks

Fast Delivery

Huge Range of Profiles

Best Prices

All our snapframes feature:

- Quick and easy poster change
- 'Security by intelligence' – when closed, all fixings and opening method are hidden from view
- Silver anodised finish as standard (unless otherwise stated)
- Anti-glare poster cover sheets
- Pre-drilled and individually boxed with screws and wall plugs
- White or grey plastic back panels depending on size/style
- Suitable for indoor or outdoor use

For added security, see our **Security** and **Lockable** Snapframes on page 28.

Recyclable
Aluminium frames, fluted polypropylene back panels and PVC/PET poster cover sheets. Mechanical fixings used throughout for easy 'end of life' recycling.

Front-opening snapframes for quick and easy poster change

Frameworkz

Patent No. GB 2464696

Digitally printed snapframes

Unlike any other poster frames, Frameworkz snapframes can be printed with almost **any design**.

From logos and text to images and patterns, the choice is yours and the opportunities truly endless.

Flat 50mm wide print surface

Stylish gloss black border

'Security by intelligence' – when closed, all fixings and opening method are hidden from view

Minimal distance between frame and poster allows design to 'cross over'

Available in virtually any size – no minimum order quantity!

- Front-opening aluminium snapframes for quick and easy poster change
- Suitable for external use (2-3 years in temperate climates)
- Anti-glare 500 micron PET poster covers
- Available with 750 micron polycarbonate glazing panels (additional cost applies)
- Pre-drilled ready for wall mounting

Made to order

Recyclable
Aluminium frames and PET poster covers. Mechanical fixings throughout for easy 'end of life' recycling.

Front-Opening Snapframes
Quick and easy poster change

Specification			
Poster Size	Display Area (mm)	O/A Dimensions (mm)	Profile Depth (mm)
Any size from A3 to 40" × 60"	Poster -31.5	Poster +79	15

Due to frame cutting and artwork tolerances of +/- 1mm, a visible 'step' across the mitred corners is sometimes unavoidable. Designs featuring straight lines across the corners will be particularly prone to this.

Cable Suspended Snapframes

- Double-sided poster display for floor to ceiling/wall mounting
- Front-opening snapframes (25mm) for quick and easy poster change
- Includes anti-glare PET poster covers
- Silver anodised finish as standard – also available in any RAL colour made to order (minimum order quantity: 25)

**In stock**

Snapframe Bracketry for Shelving Systems

If one of our standard brackets or fixture solutions doesn't fit the bill then we can design one that will – one which integrates our market-leading poster frames into your shelving and fixturing system in exactly the way you want.

We have brackets that will allow you to clip frames into system uprights, mount to shelf and gondola end capping or suspend with wirework.

Call us for further information or to discuss your ideas.

Made to order

LED illumination...

- Bright, even and long-lasting – 50,000+ hours life!
- Low-voltage – low power consumption and completely safe
- No need for qualified electrician to install
- No risk of bulb breakages – maintenance free

Hi-Sight

EU Design Registration No. 000879846

Thanks to its unique 'pull-down' poster cartridge, Hi-Sight has many advantages over traditional poster frames...

- Can be mounted up to 3 × higher

- Quicker, easier and safer – no need to stretch or use ladders

- Reduced risk of tampering and vandalism

- Hard-wearing aluminium frame
- Fixed polycarbonate poster cover with magnetic seals – virtually no risk of poster loss
- Excellent weather resistance
- Suitable for indoor and outdoor use
- Hidden pre-drilled holes, ready for wall mounting

In stock

No assembly required

Recyclable

HPL Chalkboards

- Available in 2, 3, 4 and 6mm thicknesses
- Virtually any size and shape
- Drilled ready for wall mounting
- Available plain or printed, single or double-sided

Made to order
Minimum order quantity: 10

About HPL

Our remarkable 'High Pressure Laminate' (HPL) chalkboard material is a high quality phenolic resin based laminate capable of almost limitless use and application.

- **Stays looking new** for longer and **never needs re-painting!**
- **Easy to clean** with water and household cleaner
- **Weather** and **scratch resistant** anti-glare surface
- Suitable for use with traditional chalk and liquid chalk pens
- Direct-to-surface screen and digital **printing available**
- Available in a range of thicknesses: 2, 3, 4 and 6mm

HPL's **hard-wearing**, virtually **maintenance free** properties make it ideal for both **internal and external** use whilst the specially formulated melamine impregnated surface layer means your chalkboards **stay looking new** long after conventional alternatives have faded.

2mm
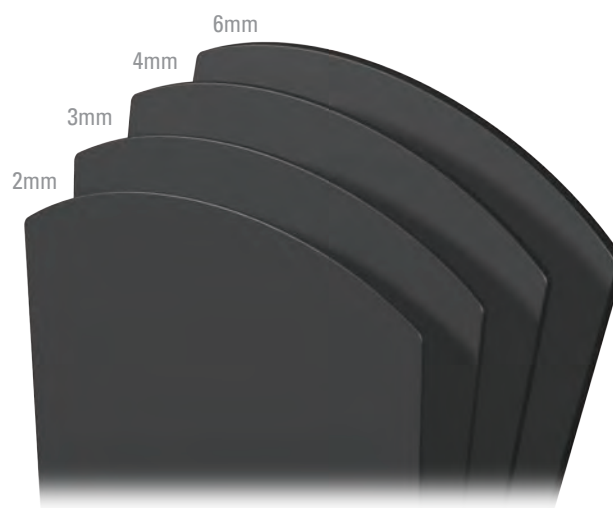

Chalk Pens

Rainbow liquid wet wipe 'chalk' can be removed with a damp cloth yet is waterproof and permanent under even the heaviest rainfall. This makes it ideal for situations where the finished work might come into contact with dampness or water.

- Rainproof after just 1 hour yet erasable with a damp cloth
- Our independent tests have conclusively shown these chalk pens provide superior colour vibrancy and outdoor durability
- Any staining following prolonged use can be removed using conventional household cleaner (e.g. Mr Muscle)

Sentinel®

EU Design Registration No. 000190954

The Ultimate Forecourt Poster Sign

External poster signage is a powerful advertising tool. With 70% of purchase decisions made in-store, driving footfall into the store is obviously key. And nothing does that better than targeted, high impact poster advertising outside the store. The use of strong graphics displayed in a well designed sign will ensure that first impressions count for success.

Optional clip-on 'Tactical Headers'

Smooth rounded corners for safety

Stainless steel tamper-proof fixings retain poster cover at the top and enable ease of poster change by one person

Zinc phosphate and polyester powder-coated steel frame (50 × 25mm oval)

Back panel available printed to ensure presence when posters are not in use

Silver border and frame as standard. Also available in custom colours (minimum order quantity: 25)

Magnetic poster covers provide superior weather resistance and poster security

Clear polycarbonate poster covers offer high impact resistance and UV stability

Water-fillable polyethylene base precisely calculated for optimum stability, made using recycled materials

Built-in wheels – easy to move with our purpose-designed trolley

Black base as standard to hide dirt and marks

Magnetic poster covers for quick and easy poster change

Coloured/printed borders available (minimum order quantity: 25)

Custom colour bases available (minimum order quantity: 100)

Now available in 3 stock sizes:

30" × 40"   **NEW!** A0   40" × 60"

Sentinel working hard for major retailers across the country

Specification			
Banner Size (mm)	O/A Dimensions (w × h × d mm)	Weight (kg)	Order Code
600 × 1600	655 × 1690 × 690	2	XBAN600

Eco Roll-Up Banner

- Low cost, spring loaded 'roll-up' for single-sided banners
- Self-adhesive strips top and bottom for easy banner installation
- Silver anodised aluminium case, top rail, pole and folding feet
- Complete with black padded carry case and full instructions
- Now available for 800mm and 850mm wide banners

In stock

1 minute to assemble
+4 minutes if banner not pre-loaded

Recyclable
Aluminium case, top rail, pole and folding feet

All components fold away into portable carry bag (included)

Adhesive top rail bonds to rear top edge of banner

Specification				
Banner Size (mm)	Display Area (mm)	O/A Dimensions (w × h × d mm)	Weight (kg)	Order Code
800 × 2000	800 × 1945	820 × 2050 × 365	3	ERBS8
850 × 2000	850 × 1945	870 × 2050 × 365	3.1	ERBS850

Banner Materials – We recommend smooth surface, lightweight rigid roll materials for Eco Roll-Up Banners, such as 125 micron grey backed polyester or 220 micron matt opaque PVC. Flexible, reinforced PVC banner materials have a textured surface and/or incorporate polymers which can react with adhesive tape so should be avoided. Do not use materials more than 300 micron thick.

Smart Roll Banner

High quality interchangeable banner displays

Patent No. EP 05801071

- Designed for a long, maintenance-free life
- Top and bottom aluminium 'clamp rails' and roller tension release mechanism make installing and removing banners quick and easy
- Banners simply roll into the case for storage and transit
- Telescopic pole allows banner height adjustment between 1 and 2.3m
- Single-sided units supplied with carry case (case for double-sided units available separately – see page 61 for details)

'Clamp rails' make installing and removing banners quick and easy

Recyclable
Aluminium case, clamp rails, pole and folding feet

Noscrewz Flag Kit

Patent No. GB 2443417

Ideal for glass mounting

With printed Display Flag

- Safe, tamper-proof and secure on any flat, smooth surface
- Incredibly quick and easy to use – simply push onto glass and twist, no tools required!
- Kits include bracket, sectional pole, collar and finial
- Suitable for internal and external use
- Plain PVC flags in stock (see page 66 for details), available printed to order

In stock

No tools assembly

Recyclable
PVC/ASA bracket, PVC pole, polypropylene collar and finial, and reinforced PVC flag

How does Noscrewz work?

A simple twist creates a vacuum that locks the bracket in place.

Simply twist back and pull upper or lower tab to release bracket.

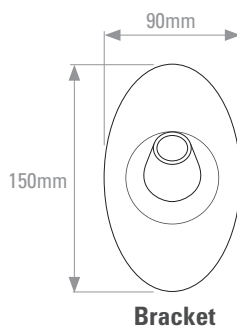

Simply twist bracket onto the glass

Pull tab to release

2-part folding base for ease of transportation

Water-fillable base with clip-in leg fixings

Flags

Our standard flag material is a 115gsm close weave knitted polyester textile, chosen for its **durability** and **image vibrancy**. For optimum **performance**, a 135gsm 'airmesh' material is also available which, thanks to small holes in the fabric, presents **less resistance** in the wind.

All flags are printed by 'dye-sublimation' which uses special inks and undergoes a post-print heating process to 'fix' the ink into the fabric, making it **scuff resistant** and **washable** and **maximising show-through** on the reverse.

Double-Sided Flags

A twin layer of standard polyester fabric with central liner allows different designs on each side and a good level of opacity. Due to the added weight, double-sided flags will not flutter in the wind in the same way as standard flags.

Freelight Plus

The most cost-effective lightbox on the market

EU Design Registration No. 000433131

- Uses existing in-store lighting for illumination
- Flat-pack design – easy to assemble and install
- Graphic inserts quick and easy to update

Each kit includes:

- Outer lens panel
- Opal 'lampshade' PVC insert – ideal for translucent vinyl or screen/digitally printed graphics
- Pair of end caps
- Ceiling hooks and eyelets

Each kit includes ceiling hooks and 2 styles of 'button' eyelets

Coloured and/or pad printed end caps available (minimum order quantity: 500)

Existing Lighting

Suspended ceilings offer prime advertising space and, with existing lighting, are perfect for Freelight Plus

+

Freelight Plus

With no need for wires or power, Freelight Plus is quick to assemble and simply hooks into place using the fixing kit supplied

=

High impact, low cost advertising

Most of the benefits of a traditional lightbox, but without the cost and inconvenience!

*Freelight Plus offers unbeatable **long-term return on investment** – simply change the insert for new promotions or leave in for permanent display*

Minimum order quantity: 50

GripTalkers

Available in 3 stock sizes, these simple yet stylish menu holders feature our spring-powered 'grip-action' bases

NEW!

PET Sleeves

- For double-sided paper inserts
- Semi-rigid, unbreakable PET – avoids brittle cracks so often seen with acrylic
- Available in 1/3 A4, A5 and A4 stock sizes

Bases

- Aluminium with silver anodised finish as standard
- Spring-powered 'grip-action' – simply open by hand, insert sleeve and release
- Suitable for self-adhesive vinyl, 'polydome stickers' or pad-printed graphics*
- Available in custom sizes, colours and finishes made to order (minimum order quantity: 100)

*Maximum pad-print height: 15mm

Other Display Options

These bases are suitable for almost any rigid sheet material between 1-4mm thick. E.g. acrylic, PVC, PET, foam PVC and HPL chalkboard panels (see page 44).

Printed panels available made to order (minimum order quantity: 25).

Polemorphics®

Patent No. GB 2439165

Award-winning modular display system for:

- Posters
- Merchandise
- Banners
- Brochures
- Graphic panels
- And much more...

Display a wide range of standard components **simply by pushing** them into the pole.

Polemorphics' patented 'gripper channel' holds virtually any 2-3mm rigid sheet material securely in place, yet still allows you to **remove and rearrange** in seconds – no tools required!

Polemorphics is ideal for a **wide range of applications** – from retail, banks and car dealerships to travel and estate agents, museums, galleries and hotels… the 'polesibilities' are endless!

Simply push items into the pole – remove and rearrange in seconds

Unlimited display combinations can be achieved with just one pole – instantly updateable without tools

- Ideal for use in shop windows, with many advantages over suspended wire and rod systems **including price**

- Engineered to provide a long and **maintenance-free** life

- Does not require professional installation – avoiding associated cost and inconvenience

2-channel pole, Snapframe Header, A3 Poster Holders and A4 Brochure Holders

Standard Components for Polemorphics®

Pole, Boss & Base

Pole:

- Silver anodised aluminium, with 2 or 4 channels
- Maximum length of gripper channel: 1895mm

Base options:

- Boss only – die-cast zinc alloy with stainless steel label/screw cover plates, suitable for permanent floor mounting and use with custom bases
- 2-part steel base – silver powder coated finish, providing stability with convenience of easy repositioning
 In stock

Poster Holders

Push holder into pole...

...insert poster into holder...
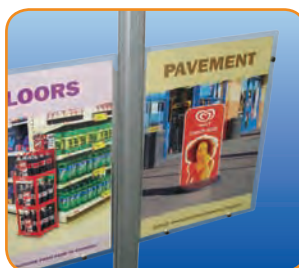

...Done! Micro-magnets ensure holder remains closed

Clear polycarbonate material is flexible, safe and indestructible

These polycarbonate poster holders provide an unbreakable poster display pocket with excellent UV resistance and a high health and safety rating. Unlike solid acrylic holders, these are flexible and spring back into position if they are walked into.

- Simply push into the pole – can be removed and repositioned in seconds
- Micro-magnet closure ensures pocket remains closed for a range of paper thicknesses
- Indestructible yet extremely flexible polycarbonate

Custom Header Bracket

Ideal for creating flat panel and 3D formed headers, the Custom Header Bracket simply unfolds and slots into place.

Flat panels can be made in metal, plastic or wood and simply cut to shape and printed or, by fabrication in layers of materials, they could produce built-up lettering or logos.

3D custom headers can be created through a variety of processes (e.g. vacuum forming), with endless possibilities for shape, finish and appearance.

- Clear polycarbonate bracket, supplied flat and simply folds into shape
- Self-adhesive pads allow instant attachment of header panels
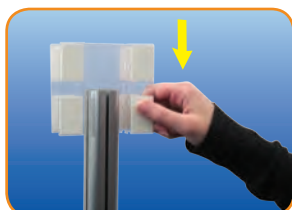

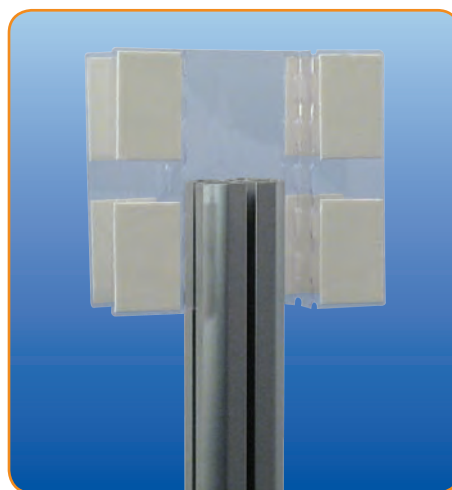

Slide bracket onto pole...	...and apply header panels	2D flat panels	3D formed header

HPL Chalkboard Panels

Using either 2 or 3mm 'High Pressure Laminate', Polemorphics can create a versatile chalkboard display – ideal for pubs, restaurants, cafes and bars.

Direct-to-surface screen and digital printing service available.

Made to order

HPL   See page 47 for more details

- Stays looking newer for longer
- Never needs re-painting
- Easy to clean
- Anti-glare surface ensures clarity
- Weather and scratch resistant

Custom Made Graphic Panels

Graphic panels provide endless opportunities for personalisation in either display board for short/medium term use or aluminium composite material (ACM) for long-term campaigns.*

- Simply push into the pole – can be removed and repositioned in seconds
- Maximum length of gripper channel: 1895mm
- Maximum recommended reach from pole: 500mm (based on 2mm thick material)

Made to order

*Display board and aluminium composite materials are recommended for their resistance to heat distortion (particularly important for window displays that receive direct sunlight).

Budget Pole System

## Low cost freestanding display for posters, brochures and banners

- Ideal for internal/temporary sheltered outdoor use
- Range of standard display options available

2-channel pole with Poster Frames (mitred corners) and steel Brochure Shelves

2-channel pole with Poster Frame (round corners) and acrylic Brochure Shelves

Optional brushed stainless
steel stand-off fittings

- Available in almost any size and shape
- Vibrant screen printing provides 5+ years outdoor life
- Digital print also available, with optional matt or gloss screen varnish to extend outdoor life
- Available in aluminium, foam PVC, acrylic, PET or polycarbonate to suit application and budget
- Pre-drilled ready for screw or nail fixing

Banners

No minimum order quantity

Silver finish
metal eyelet

All banners supplied
complete with tie-wraps

- Available in a choice of materials (see below) up to 5m (w) × 24m (l)
- 6-12 months outdoor life
- Folded hems provide a 'double-strength' perimeter for optimal wind-load resilience
- Eyelets fitted as standard (silver finish metal or clear polycarbonate, depending on quantity)
- All banners supplied with nylon tie-wraps (1 per eyelet) – quick and easy to use, achieve best appearance and extremely secure
- All banners individually poly-bagged, providing protection throughout storage and distribution

Light Block PVC
Premium quality and perfect for double-sided print

- 0.5mm/750gsm with high tenacity polyester fibre reinforcement
- High strength and totally opaque
- Long outdoor life and vibrant colour reproduction

Front-Lit PVC
Cost-effective yet high quality, for single-sided print

- 0.3-0.4mm/400gsm with high tenacity polyester fibre reinforcement
- For single-sided print with white or single colour on reverse
- 'Brilliant white' surface guarantees optimal colour vibrancy
- 69% PVC/31% polyester make-up ensures excellent outdoor performance

Polyethylene
Great value and 100% recyclable, for single-sided print

- 0.24mm/190gsm woven polyethylene, suitable for PE4 recycling channels
- Extremely high strength/rip resistance
- Heat-welded hems and clear recyclable polycarbonate eyelets as standard
- For single-sided print with white on reverse

An extremely effective, functional and innovative piece of POP designed in-house and proving to be a hit for everyone who sees it!

• Displays up to 4 messages in one

• Opening time sheets included – simply peel off and stick in the appropriate day/time slot

• Double-sided insert – rotate/reverse to display opening times or alternative message

Simply pull tabs on reverse to change open/closed message

300 × 190mm

1. Insert panel simply slides out

2. Rotate to show alternative message

3. Slide insert back into position

Inserts can be printed on reverse to provide up to 4 different messages

Round

Simple 'pull-tab' function

200mm diameter

Slider

2-piece PVC sign. Simply slide sleeve along to change open/closed message.

400 × 105mm

Postcard Holder

Minimum order quantity (guide): 50

• Prime position brand presence with real value to the retailer and the consumer

• Made in polypropylene and die-cut to shape with vibrant screen printed graphics

• O/A dimensions: 510 × 760mm

Postcards are held in place by die-cut tab holders – quick and easy to insert/remove

Solar Pendulum

The Premium Wobbler – ideal for counters, shelves, tills, back bars and window displays

Square-cut design: 25+
Die-cut/shaped design: 250+
(recommended due to one-off cutter charge)

- Self-starting motor
- Interchangeable graphics – Velcro pads for quick and easy updating
- Freestanding or fixing solutions to suit
- 2 or 3 piece graphics – made with washable 220/440 micron PVC

Powered by sunlight or ambient store lighting – no batteries required!

Graphics supplied complete with pre-applied Velcro pads for ease of assembly

Freestanding 3-piece design

Creative placement – a great way to bring attention to behind-the-bar promotions

Specification		
Panel	Dimensions (mm)	Material
Back (optional)	112 × 180	440 micron PVC
Moving	65 × 110	220 micron PVC
Front	65 × 93	

Shelf-front unit driving impulse sales

Freestanding 2-piece design

Use individually or link together
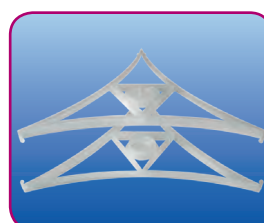

Mobiles

Minimum order quantity (guide): 50

- High impact 3 and 4 sided hanging displays
- Graphic panels simply clip on and off – quick and easy to change
- Lightweight, flat-packed and easy to assemble
- Use individually or link together (hooks included)

Adjustable hook included with each unit

3-sided top and bottom mouldings for 400mm or 500mm wide panels

4-sided top and bottom mouldings for 400mm wide panels

Brand Blocks

Minimum order quantity (guide): 50

Also known as 'logo blocks', these simple, stylish and highly effective brand promoters are ideal for windows, counter tops and shelves.

Cut to size in high quality 20mm crystal clear acrylic, Brand Blocks are reverse-printed to achieve that characteristic visual depth and diamond-edge polished as standard for optimum clarity from every angle.

Frequently used in jewellery and watch display cabinets, clothing outlets, electrical retailers and financial services to name a few!

Available in 3 standard sizes and custom sizes made to order.
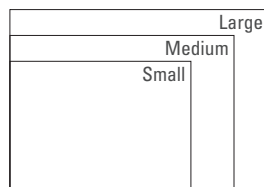

Large
Medium
Small

Large:
150 × 105mm

Medium:
130 × 90mm

Small:
105 × 75mm

Cheque/Counter Mat

Minimum order quantity (guide): 50

- Functional item with real value to the retailer
- Special soft lay-flat writing surface – comfortable to use
- Choice of size and shape with vibrant screen printed graphics
- Easy to clean

Basket Liners

Minimum order quantity (guide): 250

- Increase impulse sales amongst basket shoppers
- Scuff resistant printed promotional inserts
- Quick, easy and cost-effective
- Available in 'square cut' or custom shapes (one-off cutter charge applies)

Napkin/Beer Mat Holders

Minimum order quantity (guide): 50

Made in high impact polystyrene (HIPS) with screen/digitally printed graphics, these eye-catching holders deliver brand presence with functional purpose.

Available in a wide variety of shapes and sizes.

Multi-Cup Display

Minimum order quantity (guide): 50

Precisely cut spaces hold cups securely in place and vibrant screen/digitally printed graphics ensure the Multi-Cup Display is not only informative and helpful but visually appealing as well.

Made in high impact polystyrene, this is cost-effective to produce in small quantities, lightweight and easy to clean with a high quality gloss finish.

*All Product Display & Presentation products are **made to order***

Beartrap Tyre Stand

Minimum order quantity (guide): 50

This simple yet stylish display stand is available in steel, aluminium or high impact polystyrene (HIPS) and almost any colour, with either vinyl branding (steel/aluminium) or direct-to-surface printed graphics (HIPS).

The Beartrap's 2 sections simply slot together and are easily adjustable to suit different tyre sizes.

Steel Beartrap with gloss black finish and vinyl sticker
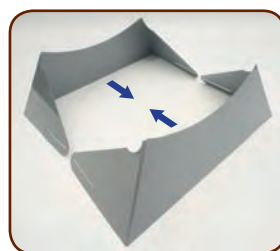

Built-in sliders make it easy to adjust for different tyre sizes

Tyre Trolley

Minimum order quantity (guide): 50

The Tyre Trolley has been a successful industry 'generic' product for many years. It provides that perfect combination of effective product promotion and functional purpose that makes it a winner with brands and retailers alike.

Consisting of a steel frame with customised aluminium header, the Tyre Trolley flat packs for efficient distribution, has a simple 'no tools' assembly method and features a central security bar and padlock.

Ice Cream Holders

Minimum order quantity (guide): 25

• Made in 2mm powder coated aluminium

• Choice of sizes to choose from

• Low minimum order quantities

• Optional non-slip feet

Freestanding Tiered Dumpbin

Minimum order quantity (guide): 100

- Hard wearing crystal polypropylene with powder coated steel base
- Quick and easy 'no tools' assembly
- High visibility, low cost product display
- Height: 1555/1212mm (with/without header); Diameter: 300/400mm (tube/base)

Clever flat-pack design for efficient storage and distribution

Counter Top Dumpbin

Minimum order quantity (guide): 200

- Durable, hard wearing and washable
- Cost-effective impulse sales driver
- Screen printed, die-cut crystal polypropylene
- Dimensions: 250mm (diameter) × 250mm (height)

2 part flat pack design

Gravity Can/Tube Dispenser

Minimum order quantity (guide): 250

- Injection moulded clear ABS/styrene
- Modular design – can be used individually or linked together
- Available for non-standard pack sizes, subject to minimum quantity and one-off design/tooling charge

Case Stacker

Minimum order quantity (guide): 50

Ideal for large items such as food and drink multi-packs, the freestanding Case Stacker is easily adaptable to suit different product sizes and shapes, with optional shelves for lightweight items.

The powder coated steel frame can display header and side graphic panels in a variety of materials such as card, plastic and aluminium, all of which flat packs for efficient storage and distribution.

Tiered Product Display Racks

Good design and simple 'no tools' assembly guarantees maximum store compliance from our attractive racking systems
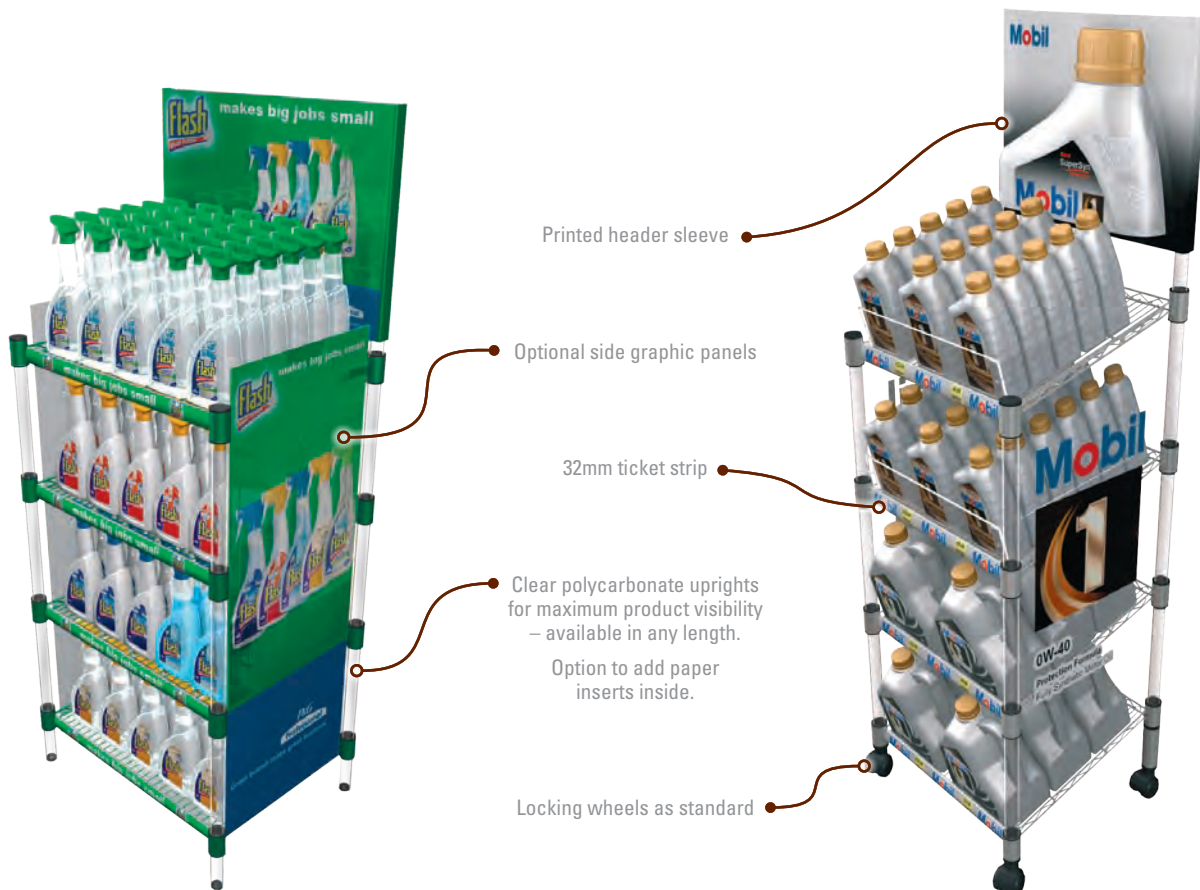

Metal Racks   Minimum order quantity (guide): 200

Recyclable
Steel and polycarbonate

Our wire racks combine the cost benefits of a standard plastic moulded rack with the flexibility of a bespoke design. Shelf size, number of tiers and heights, colour and branding treatments can all be customised without a tooling charge in sight! Combine this with flat-pack distribution and these high compliance rated, secondary placement FSDUs will be a hit for brands and retailers alike.

Printed header sleeve

Optional side graphic panels

32mm ticket strip

Clear polycarbonate uprights for maximum product visibility – available in any length.
Option to add paper inserts inside.

Locking wheels as standard

Mastershelf

Gravityshelf

Custom base for a shallow rack design and alternative look

Racks can be made to any size and finished in virtually any colour

Made to measure wire shelf dividers for Gravityshelf – simply clip into position

Both metal and plastic rack systems lend themselves to an array of creative graphic treatments to bring your display to life...

Wings, wobblers, solar motors and illumination can be used to enhance traditional headers and side panels.

Plastic Racks

- Choice of 2 standard leg heights and optional raised feet (see table below)
- Proven to be cheaper than cardboard displays and much longer lasting
- Minimum economical run: 1000 trays

Recyclable
Polypropylene trays and styrene legs

Optional
raised feet

Promo card holder
moulded into each tray

Trays include
moulded recesses
for brand labels

Rear view showing updateable
header mounting detail

Specification	
Item	**Dimensions (mm)**
Leg 1	325 (space between racks)
Leg 2	385 (space between racks)
Feet	85 (from ground to underside of first rack)

The combination of injection moulded polypropylene trays and unique tapered styrene legs results in a plastic rack system that is **stronger** and **more rigid** than typical plastic rack designs as well as being **fully recyclable**. Not only **hard wearing**, **easy to clean**, **updateable** and **fully modular** from one up to five tiers, **cost savings of over 50%** have been demonstrated versus cardboard displays. Plastic racks also allow access from all sides if required – something you won't get from a cardboard unit.

Adfresco® Café Barrier

Patent No. GB 2472843

The ultimate in quality and design

- Unique **patented design**

- **Highest quality** 3-series stainless steel throughout – excellent outdoor performance and high chip/scratch resistance

- **Quick and easy** to assemble – simple pictorial instructions and Allen keys provided

- **Fully compliant** with Local Authority and Disability Discrimination Act (DDA) requirements

- Range of banner size and **material options available** (see following page)

- **Flat packed** with sectional cross rails for ease of distribution and storage

Use individually or link together

In stock
All printed banners are made to order

Recyclable
Stainless steel cross rails, poles and bases. Designed for easy 'end of life' recycling.

Cross rails with easy 'clip-in' attachment – intuitive quick-release operation

Rigid lower cross rails ensure audible 'tap' and resistance for the visually impaired (fully DDA compliant)

14.4kg stanchions with 360mm diameter bases for optimum stability.
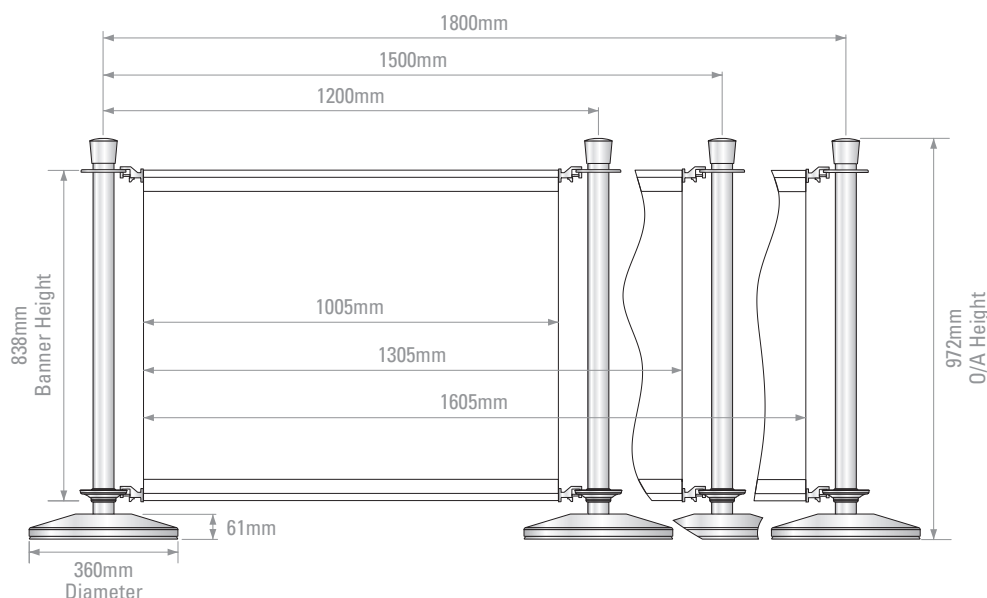

Durable rubber base edges prevent damage to base/floor and give option to 'roll' rather than lift.

Unique 'smooth glide' sliding ring:

- Improves stability by allowing banner to flex in the wind

- Aids banner/cross rail installation and removal

- Keeps banner flat

- Eliminates rattling and pole damage associated with metal variants

Chrome plated 'Eye Plate' available for wall mounting

| Specification			
Item	Dimensions (mm)	Weight (kg)	Order Code
Pole	O/A height: 972 Diameter: 51	0.9	CBBPOLER
Sliding ring	110 (dia.) × 30 (h)	0.3	CBBRING
Base	Height: 61 Diameter: 360	13.5	CBBBASE
Cross Rail (2 per banner required)	Length: 1200*	0.8	CBCR1200
	Length: 1500*	1.3	CBCR1500
	Length: 1800*	1.4	CBCR1800

	1305 × 838		
	1605 × 838		
Eye Plate (for wall mounting)	40 × 40 × 35 (w × h × d)	0.06	CBBEYERING

*Refers to distance between centres of poles.
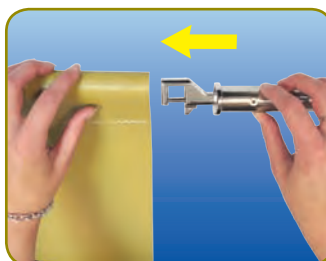

Quick and easy to use – simply slide cross rail into banner hem and roll-up for storage
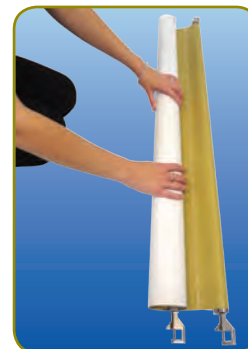

Printed banners available in a choice of materials:

Light Block PVC

Reinforced and totally opaque, this is perfect for double-sided print, long outdoor life and vibrant colour reproduction. The easy 'wipe clean' surface makes it ideal for front-of-house food and drink environments.
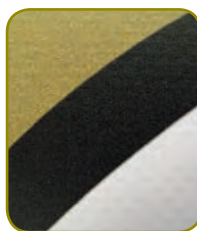

Front-Lit PVC

This material has a woven textured surface and canvas appearance, providing a high quality print surface on one side with white or single colour on the reverse. Unlike cotton-based canvasses, it is cost-effective, will never stain, fray or rot, and delivers vivid colour reproduction across the full spectrum.

Mesh PVC

Provides a semi-transparent finish and allows some air to pass through, making it ideal for windy locations, 'subtle branding' and creating a 'style-bar' look. Full colour print is available on one side with white or single colour on the reverse.

Polyester Canvas

A traditional woven canvas fabric with a dense construction and natural white colour for excellent colour reproduction. This 100% polyester material offers full colour print on one side, with white or single colour on the reverse.
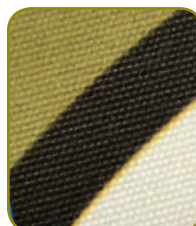

All our banners are suitable for outdoor use

103

Pole & Rope Barrier

Featuring our high quality Adfresco® poles and bases combined with a choice of rope styles and colours

Velvet Rope (above) and **Twisted Rope** (below) Available in 3 stock colours

- **Highest quality** 3-series stainless steel throughout with high chip/scratch resistance

- **Quick and easy** to assemble – simple pictorial instructions and Allen keys provided

- Ropes feature easy 'clip-in' attachment – intuitive quick-release operation

- 14.4kg stanchions with 360mm diameter bases for optimum stability

- Durable rubber base edges prevent damage to base/floor and give option to 'roll' rather than lift

- Flat packed for ease of distribution and storage

In stock

Recyclable
*Stainless steel poles and bases.
Designed for easy 'end of life' recycling.*

Polished brass and polished black finishes also available
Minimum Order Quantities

Recommended Poster Materials

To ensure best performance against condensation/moisture ingress in outdoor poster advertising, we recommend:

For 1-3 months life

Wet strength, water resistant or waterproof paper (115–200gsm)
Additives included during paper manufacture prevent the paper from breaking apart when in contact with moisture, ensuring it remains strong and stable. These are common specification for short to medium term poster campaigns and billboard advertising.

For 3 months+ life

Lamination – 'encapsulating a paper poster in thin sheets of clear plastic'. This is also the only means of creating posters for outdoor use when 'water-based' inks are used. Delivers reliable performance if the encapsulation is made to seal around the whole perimeter of the poster.

Printing onto plastic – Synthetic Paper (80 micron minimum thickness polypropylene), sometimes termed 'Poly Poster', or 220 micron PVC are cost effective alternatives for longer-life applications e.g. displaying a business service offer, restaurant menus or repeating seasonal promotions.

Paper Sizes

Size	Millimetres	Inches
A0	841 × 1189	331/8 × 463/4
A1	594 × 841	233/8 × 331/8
A2	420 × 594	161/2 × 233/8
A3	297 × 420	113/4 × 161/2
A4	210 × 297	81/4 × 113/4
A5	148 × 210	57/8 × 81/4
A6	105 × 148	41/8 × 57/8
A7	74 × 105	27/8 × 41/8
1/3 A4	99 × 210	8 × 41/4
20" × 30"	508 × 762	20 × 30
30" × 40"	762 × 1016	30 × 40
40" × 60"	1016 × 1524	40 × 60
